

**Faculty Search Notice for Professor (Assistant/Associate)**  
**Department of Computer Science**  
**College of Natural Sciences**

The Department of Computer Science, College of Natural Sciences at the University of North Carolina at Charlotte is searching for a professor to fill an assistant and/or associate position in the areas of (1) Machine Learning, Data Management, Software Engineering, or (2) Cybersecurity or Systems (depending on the candidate's research interests). Research interests should be submitted by August 1, 2023.

**Requirements:** Applicants must have a PhD in computer science or Computer Science or related discipline from an accredited university. Teaching experience at the assistant level supports for a consideration of other teaching options to support in departmental expansion activities in other regions. Successful candidates should exhibit an excellent ability to coordinate & conduct a teaching program, possessing knowledge in the use of educational technologies, available to their classes and maintain an effective student learning strategy.

**Responsibilities:** To promote and enhance teaching at the undergraduate and graduate level using various techniques, develop research and assist in their areas of expertise to gain national recognition and use their discipline expertise to provide algorithmic models, conceptual framework and analysis of current tools. Perform duties as committee and in department and university life, as well as carry out all responsibilities of the faculty and consistent with the General Regulations of the UNC.

**Deadline for applications:** August 28, 2023. Candidates must send to the search chair, at least two teaching and research statements (maximum 2 pages), a cover letter, their resume and research proposal. A complete list of these further requirements and application questions is available at <https://www.uncc.edu/col-nat-sci/faculty-search> and include our 7-point rubric at <https://www.uncc.edu/col-nat-sci/faculty-search>.
